

Preface	vii
Chapter 1	The Rational Use of Lignite Resources	1
	Denis Miroshnichenko, Serhiy Pyshyev, Vladimir Lebedev, Bohdan Korchak, Mariia Shved, Katerina Lebedeva, Anna Cherkashina, Dmytro Savchenko, Natalia Klochko, Tetyana Tykhomyrova and Liudmyla Lysenko	
Chapter 2	A Simple Method of Determining False Starts to Rainy Season in a Data-Scarce Small Island: The Case of St. Vincent and the Grenadines	63
	Joan Mc Donald and Antonio R. T. Joyette	
Chapter 3	Assessing the Water Quality of a Subtropical Estuary after a Major Fire and the Use of Large Amounts of Aqueous Film Forming Foams (AFFFs)	103
	Denis Moledo de Souza Abessa, Luciane Alves Maranhão, Lucas Buruaem Moreira, Roberto Fioravanti Carelli Fontes, Lauriney Gomes de Oliveira, Maysa Ueda de Carvalho and Ana Julieta Ratzka	

Chapter 4	The Development of the Least Concerning Species (<i>Syzygium cumini</i> (L.) Skeel) for the Diversification of Smallholder Agroforestry Practices and Agrotourism in Sumedang, West Java, Indonesia137
	Maria Palmolina, Aris Sudomo, Marcellinus Mandira Budi Utomo, Levina Augusta Geraldine Pieter, Arini Wresta and Anita Apriliani Dwi Rahayu
Chapter 5	An Overview of Dimensionally Stable Anodes' Utilization for Wastewater Treatment159
	Monica Ihos
Chapter 6	Martian Methane: Detection, Sources and Sinks177
	Richard A. Armstrong
Chapter 7	The Hydro-Climatic System of the Volga River Basin as a Basis for Ecological Prognoses and Paleo-Reconstructions193
	Erland G. Kolomytz
Chapter 8	The Effects of Dimethyl Ether (DME) on Enhanced Oil Recovery (EOR) with a Water-Alternating-CO₂ Process213
	Yoo Jin Choi, Kwangduk Seo and Kun Sang Lee
Contents of Earlier Volumes	237
Index	245
