

Volume 88 . Issue 5
October 2023

Differences in photosynthetic characteristics of reproductive branches at different leaf positions of *Rosa roxburghii* on the Yunnan Guizhou Plateau
Zhang Chao Qin Wen Fang Yumei Guo Lina Wei Linjuan

Onion *AcCDF4* ectopia overexpression regulates flowering and abiotic stress response in *Arabidopsis*
Lei Qin Yuqi Zhang Xiong Wu Jie Sheng Huili Ma Yifan Geng Yong Wang

Substrate amended with solid humic substances improved 'Micro-Tom' tomato (*Solanum lycopersicum* L.) growth
Kuan Qin J.T. Harvey Chungkeun Lee D.I. Leskovar

Use of high concentrations of ethyl methanesulfonate to induce flower mutation and improve flowering in African violets
A. Ghimire Jong-Yi Fang

Summer pruning and pneumatic preharvest-defoliation affect the light distribution within the canopy and improve the fruit quality of two bicolored apple cultivars
C. Andergassen D.A. Hey D. Pichler M. Peterlin M. Kelderer P. Robatscher M. Tagliavini

Systemic induction of β -1,3-glucanase and chitinase activities in black rot resistant mutants of *Dendrobium* 'Earsakul' in response to *Phytophthora palmivora* infection
A. Khairum W. Chueakhunthod K. Siwapitakpong P. Pornbungkerd A. Tharapreuksapong P.A. Tantasawat
