
109044

Insights into network rearrangement of konjac glucomannan gel induced by post-gelation soaking

Qinyue Zheng, Zhenjun Liu, Xiaomin Liang, Yun Zhou and Guohua Zhao

109009

Two proteins prepared from defatted Antarctic krill (*Euphausia superba*) powder: Composition, structure and functional properties

Mengke Yao, Xuelei Gai, Miansong Zhang, Xue Liu, Tingting Cui, Changheng Liu, Deting Liu and Airong Jia

109071

Insight into the formation mechanism of soy protein isolate films improved by dialdehyde starch with different degrees of aldehyde substitution

Yuan Zhao, Ran Tian, Mengqi Cui, Yan Zhang, Lianzhou Jiang, Bo Tian and Xiaonan Sui
