749 Supporting adaptation

Comments

750 **Reclaiming open climate adaptation futures**
Carol Farbotko et al.

752 **Taking stock of the implementation gap in climate policy**
Taryn Fransen et al.

756 **Increased transparency is needed for corporate science-based targets to be effective**
Anders Bjørn et al.

Viewpoint

760 **Linking sea-level research with local planning and adaptation needs**
Brian Blankespoor et al.

Research highlights

764 Our choice from the recent literature

News & views

765 **Social cooperation**
Drought experience and altruism
Quynh Nguyen

767 **Disease burden**
Susceptibility of *Wolbachia* mosquito control to temperature shifts
Eric P. Caragata

769 **Conservation biology**
Consider physiology when translocating animals
Shane D. Morris

771 **Snapshot**
How to move a cat
Tegan Armarego-Marriott

Research briefings

772 **Retrofitted carbon capture and storage for negative emissions in China's co-firing plants**

774 **Nature-based solutions can pave the way to carbon-neutral cities in 2030**

776 **Gains and losses in forest cover have asymmetric effects on land surface temperature**

Perspectives

778 **Towards scenario representation of adaptive capacity for global climate change assessments**
Marina Andrijevic et al.

788 **A framework for considering justice aspects in integrated wildfire risk management**
T. Schinko et al.

796 **How accurate is accurate enough for measuring sea-level rise and variability**
Benoit Meyssignac et al.

Brief communication

804 **Systemic risks from climate-related disruptions at ports**
Jasper Verschuur, Elco E. Koks & Jim W. Hall

Articles

807 **Co-firing plants with retrofitted carbon capture and storage for power-sector emissions mitigation**
Jing-Li Fan et al.
See RB p772

816 **Present-day North Atlantic salinity constrains future warming of the Northern Hemisphere**
In-Hong Park et al.

Continues ►

823 Asymmetric influence of forest cover gain and loss on land surface temperature

Yongxian Su et al.
See RB p776

832 Sensitivity of Arctic CH₄ emissions to landscape wetness diminished by atmospheric feedbacks

Philipp de Vrese et al.

840 Microclimate and forest density drive plant population dynamics under climate change

Pieter Sanczuk et al.

848 wMel replacement of dengue-competent mosquitoes is robust to near-term change

Váleri N. Vásquez, Lara M. Kueppers, Gordana Rašić & John M. Marshall
See N&V p767

Analysis

856 Drought exposure decreases altruism with salient group identities as key moderator

Stefan Döring & Jonathan Hall
See N&V p765

862 Contribution of prioritized urban nature-based solutions allocation to carbon neutrality

Haozhi Pan et al.
See RB p774

Amendment

871 Author Correction: Widespread shift from ecosystem energy to water limitation with climate change

Jasper M. C. Denissen et al.
