## Editorial

107 Sky views

## Comments

108 **The role of the scientific community in strengthening disability-inclusive climate resilience**

*Penelope J. S. Stein, Michael Ashley Stein, Nora Groce & Maria Kett*

110 **Closing the loop of reflexivity**

*Junko Mochizuki & Yoshihide Wada*

113 **Incorporating dead material in ecosystem assessments and projections**

*Kelsey Archer Barnhill et al.*

## Research highlights

116 **Our choice from the recent literature**

## News & views

117 **Energy transition  
Powering past coal is not enough**

*Ajay Gambhir*

119 **Antarctica  
Ice shelves guarded by snow shields**

*Lauren M. Simkins*

121 **Soil biogeochemistry  
Warming to increase cropland carbon sink**

*Julian Campo*

123 **Ecohydrology  
Spring phenology alters vegetation drought recovery**

*Lixin Wang*

## Research briefing

125 **Classifying different national approaches to climate governance**

## ON THE COVER

In January 2022, the Hunga Tonga–Hunga Ha'apai eruption in the Pacific Ocean caused a tsunami and a large plume of ash to rise into the atmosphere. In this issue, Jenkins et al. show that this eruption could cause some additional short-term warming over the next few years, but mitigation of human-induced emissions is still key in order to stay below temperature thresholds.

## Brief communication

127 **Tonga eruption increases chance of temporary surface temperature anomaly above 1.5 °C**

*Stuart Jenkins, Chris Smith, Myles Allen & Roy Grainger*

## Articles

130 **Coal-exit alliance must confront freeriding sectors to propel Paris-aligned momentum**

*Stephen L. Bi, Nico Bauer & Jessica Jewell*

*See N&V p117*

140 **Socio-political feasibility of coal power phase-out and its role in mitigation pathways**

*Greg Muttitt, James Price, Steve Pye & Dan Welsby*

*See N&V p117*

148 **Geostrophic flows control future changes of oceanic eastern boundary upwelling**

*Zhaojing et al.*

155 **Recent waning snowpack in the Alps is unprecedented in the last six centuries**

*Marco Carrer, Raffaella Dibona, Angela Luisa Prendin & Michele Brunetti*

161 **Variable temperature thresholds of melt pond formation on Antarctic ice shelves**

*J. Melchior van Wessem, Michiel R. van den Broeke, Bert Wouters & Stef Lhermitte*

*See N&V p119*

167 **Sharpening of cold-season storms over the western United States**

*Xiaodong Chen, L. Ruby Leung, Yang Gao, Ying Liu & Mark Wigmosta*
