EDITORIAL

Special Issue: Review Articles on Different Topics in Apidology

Panuwan Chantawannakul, Robert Brodschneider, Otilia Bobis, Melanie Parejo, and Maria Bouga 1

BEE MANAGEMENT

Euthanasia and welfare of managed honey bee colonies

Franco Mutinelli 2

An overview of beekeeping in the Kingdom of Saudi Arabia

Abdulmajeed Albarrak and Alison Gray 11

ECOLOGY AND CONSERVATION

Insect pollinators decline: an emerging concern of Anthropocene epoch

Ravinder Nath, Harpreet Singh, and Santanu Mukherjee 23

Lasioglossum bees – the forgotten pollinators

Warrick Nelson, Lisa Evans, Barry Donovan, and Brad Howlett 39

Notes on the biology of *Scaura* (Hymenoptera: Apidae: Meliponini)

David Silva Nogueira, Epifânia Emanuela de Macedo Rocha, Jânio Angelo Félix, Marcos Aurélio Pereira de Andrade, Marilda Cortopassi-Laurino, Rogério Marcos de Oliveira Alves, Breno Magalhães Freitas, and Marcio Luiz Oliveira 47

TOXICOLOGY

Honey bee losses and pesticides threat: an Asian perspective

Mahnnoor Pervez and Farkhanda Manzoor 64

HIVE PRODUCTS SCIENCE

Present state and perspectives in analytical methods for pesticide residues analysis in bee pollen: an overview

Mária Rusnáková, Ján Hrouzek, and Svetlana Hrouzková 76

The regenerative potential of honey: a comprehensive literature review

Arslan Iftikhar, Rimsha Nausheen, Imran Mukhtar, Rana Khalid Iqbal, Ahmad Raza, Ayesha Yasin, and Haseeb Anwar 97

Bioactive properties of honeys from stingless bees and *Apis mellifera* bees in the food industry

Ina Ramírez-Miranda, Yolanda Moguel-Ordoñez, and David Betancur-Ancona 113

Chemical profiling, biological properties and environmental contaminants of stingless bee honey and propolis

Zainab Ngaini, Hasnain Hussain, Easter Sirah Kelabo, Rafeah Wahi, and Saba Farooq 131

Bee glue scientometrics and therapeutics: phytochemical screening, methodological trends and prospects

Arlik Rafael S. Sousa, Elizabete Santana, Tamna J.F. Lima Guedes, and Edílson D. Araújo 148

Factors affecting propolis production

Ruby Mountford-McAuley, Jason Prior, and Andrea Clavijo McCormick 162

Propolis and its effects on bee diseases and pests: a systematic review

Guido Laércio Bragança Castagnino, Aránzazu Meana, Maria Teresa Cutuli de Simón, and Luis Fernando Batista Pinto 171

On the view of stingless bees' non-honey foods

Fadina Amran and Muhammad Abbas Ahmad Zaini 185
