

Contents

SPECIAL ISSUE: INNOVATIVE ENVIRONMENTAL TECHNOLOGIES AND MANAGEMENT

Guest Editor: Professor Hong Zhang

- 1 **Changes and variability of rainfall amounts and extreme indices in Gedeo Zone, Southern Ethiopia**
Yimer Mohammed, Asnake Yimam and Abiyot Legesse
- 23 **A drought monitoring method in the Yellow River basin based on boundary extraction of remote sensing images**
Yang Liu, Xiaodong Shi, Ge Zhang, Shaofeng Zhao and Ze Wang
- 37 **A monitoring method of surface vegetation distribution in the Yellow River Basin based on remote sensing image segmentation**
Wei Wang and Xiaoyan Yi
- 49 **A risk detecting and preventing system for hazardous chemicals in energy industry based on knowledge graph**
Guanlin Chen, Bangjie Zhu, Lei Zhou, Qi Lu and Wenyong Weng
- 66 **Spatial planning method of urban landscape architecture distribution pattern based on evolutionary algorithm**
Jingjing Feng and Yuxiong Chen
- 79 **The numerical simulation of thermal environment of high-rise buildings based on Rosseland radiation model**
Yanping Xie, Yabin Wu, Zhi Zhao and Hui-hua Xiong
- 92 **Analysis on the spatial dynamic characteristics of land use in the urban agglomeration in central Yunnan based on random forest algorithm**
Lede Niu, Jingzhi Lin, Lifang Zhou and Yan Zhou
- 110 **Economic security and enterprise management in the conditions of an environmental economy as a basis for sustainable development**
Svitlana Tiutchenko, Maryna Ivanova, Viktoriia Smiesova, Olena Tryfonova, Vasyl Shvets and Alla Dudnyk
- 129 **Environmental quality of the Oued Lârbaa, Morocco: a multivariate approach using physicochemical parameters, indicator bacteria and parasite and floristic monitoring**
Nezha Mherzi, Fatima Lamchouri, Abdelouahab Zalaghi and Hamid Toufik

Additional Paper

- 151 **Maximum power point tracking for grid tied solar fed DTC controlled IM drive using artificial neural network with energy management**
S. Senthamizh Selvan
