Brewing beer using bakery leftovers as a substitute for malt <i>Dymchenko, A., Milan Gersl, Gregor, T.</i> 1	Enantiospecific determination of the odour threshold concentrations of (R)- and (S)-linalool in water and beer <i>Reglitz, K., Stein, J., Ackermann, J., Heigl, V., Brass, L., Ampenberger, F., Zarnkow, M., Steinhaus, M.</i> 92
Quality reduction of beer stored in transfer tubes of a dispensing system – an investigation with sensory and GC/MS analyses <i>Werner, R., Lehnhardt, F., Göhring, A., Geier, D. U., Gastl, M., Becker, T.</i> 11	Identification and quantification of chromophoric substances in barley (<i>Hordeum vulgare</i> L.) <i>Häge, D., Reichenbacher, M., Bernhard, M., Schneider, K., Krause, B., Zarnkow, M., Lindemann, M.</i> 97
CaCO₃ deposits in reverse osmosis: Part III – Incipient Scaling detection via polymer optical fibre sensors. Comparison to hydrochemical prediction and image analytical methods <i>Hager, S., Oesinghaus, H., Bachmann, A., Meinardus, M., Hofmann, T., Engelbrecht, R., Glas, K.</i> 19	The influence of water composition on the gushing behaviour of malt in Modified Carlsberg Test <i>Steil, F.L., Schramm, T., Neugrodda, C., Gastl, M., Becker, T.</i> ... 107
Effect of fermentation conditions (yeast content and fermentation time) on the ethanol and bioactive compounds of <i>Elaeocarpus hygrophilus</i> Kurz wine by using response surface methodology YEAST SPECIAL <i>Giang, N. T. N., Khai, T. V.</i> 30	Relevant process steps influencing wort and beer composition and its quality: A review <i>Wasmuht, I.</i> 113
Quantitative analysis of a large spectrum of hop phenolic compounds by LC-MS/MS <i>Schmidt, C., Biendl, M.</i> 38	Nutritional analysis of super galena hops HOP SPECIAL <i>Maye, J. P.</i> 130
Machine Learning Approach to Enhancing Drying Efficiency of Hop (<i>Humulus lupulus</i> L.) <i>Pinto, M. B. C., Ghion, R. A. C., Schmidt, F. L.</i> 48	The impact of diseases on the quality of hops for use in brewing beer HOP SPECIAL <i>Forster, A., Gahr, A., Schüll, F.</i> 133
Effects of Mash Chelator Addition on Transition Metal Content and Oxidative Stability of Brewer's Wort <i>Mertens, T., Kunz, T., De Rouck, G., Gibson, B., Aerts, G., De Cooman, L. (*)</i> 58	The relevance of Hop Storage Index (HSI) for hop usage HOP SPECIAL <i>McMillan, J., Zunkel, M., Muñoz Insa, A., Schönberger, C.</i> 147
Development of a tractable model system to study microbial community succession during wood-ageing of beer on a lab scale <i>Bossaert, S., Kocijan, T., Winne, V., Van Opstaele, F., Schlich, J., Herrera-Malaver, B., Verstrepen, K. J., De Rouck, G., Lievens, B., Crauwels, S.</i> 73	Comparative analysis of dry-hopping with hop extracts versus hop pellets HOP SPECIAL <i>Outhwaite, B., Symes, A., Mills, D.</i> 159
