
Editorial

- 107 Registered Report for climate research

Comments

- 108 **Extinction of experience due to climate change**
Masashi Soga & Kevin J. Gaston
- 111 **Overcoming barriers to climate-smart agriculture in South Asia**
Asif Ishtiaque et al.
- 114 **Earth system models must include permafrost carbon processes**
Christina Schädel et al.

Research highlights

- 117 Our choice from the recent literature

News & views

- 118 **Climate reconstruction**
Ocean warming and warning
Wenfeng Deng
- 120 **Carbon cycle**
Warming food webs at high latitudes
Emily R. Arsenault
- 122 **Warming food webs**
Predator behaviour is altered by climate warming effects rippling through food webs
Martijn L. Vandegehuchte

Research briefing

- 124 Pacific tropical instability waves have intensified since the 1990s

Perspectives

- 126 **Assumptions and contradictions shape public engagement on climate change**
Michael Murunga, Catriona Macleod & Gretta Pecl

-
- 134 **Supply, demand and polarization challenges facing US climate policies**
Matthew G. Burgess et al.

Matters arising

- 143 **Limitations of reanalyses for detecting tropical cyclone trends**
Kerry Emanuel
- 146 **Reply to: Limitations of reanalyses for detecting tropical cyclone trends**
Savin S. Chand et al.

Brief communication

- 148 **African rice cultivation linked to rising methane**
Zichong Chen, Nicholas Balasus, Haipeng Lin, Hannah Nesser & Daniel J. Jacob
- 152 **Towards an increasingly biased view on Arctic change**
Efrén López-Blanco et al.

Articles

- 156 **Eddy activity in the Arctic Ocean projected to surge in a warming world**
Xinyue Li et al.
- 163 **Intensification of Pacific tropical instability waves over the recent three decades**
Minyang Wang, Shang-Ping Xie, Hideharu Sasaki, Masami Nonaka & Yan Du
See RB p124
- 171 **300 years of sclerosponge thermometry shows global warming has exceeded 1.5°C**
Malcolm T. McCulloch, Amos Winter, Clark E. Sherman & Julie A. Trotter
See N&V p118

Continues ►

178 Production vulnerability to wheat blast disease under climate change

Diego N. L. Pequeno et al.

184 Climate warming restructures food webs and carbon flow in high-latitude ecosystems

Philip J. Manlick, Nolan L.

Perryman, Amanda M. Koltz,

Joseph A. Cook & Seth D. Newsome

See N&Vp120

190 Warming causes contrasting spider behavioural responses by changing their prey size spectra

Xiaoli Hu et al.

See N&Vp122

Registered report

198 A representative survey experiment of motivated climate change denial

Lasse S. Støtzer & Florian

Zimmermann

Amendments

205 Author Correction: Distributional labour challenges and opportunities for decarbonizing the US power system

Judy Jingwei Xie, Melissa Martin,

Joeri Rogelj & Iain Staffell

205 Publisher Correction: Climate warming restructures food webs and carbon flow in high-latitude ecosystems

Philip J. Manlick, Nolan L.

Perryman, Amanda M. Koltz,

Joseph A. Cook & Seth D. Newsome
